Summary

I am a detail-oriented, curious, and result-driven; skilled front-end developer with 4 years of experience in building web and mobile applications. My expertise lies in utilizing popular front-end frameworks and libraries such as React Native, React.js, Vue.js, etc to create responsive, feature-rich, and scalable interfaces for mobile and web applications. I also have a strong understanding of Node.js which allows me to work on the backend part of web applications and create efficient and scalable servers. Additionally, I have a strong knowledge of object-oriented programming.

Education

BSc

Bowen University

BSc Biological Sciences Oct, 2012 - Sep, 2019

Work experience

Fullstack Web Developer (contract)

2024-02 - 2024-07

[FlightStory/Flight3](#)

- Led the development of the new [Fabric](#) website, seamlessly integrating modern web technologies to enhance user experience and drive engagement.
- Collaborated closely with animators and designers, implementing complex designs using Lottie for animations and React Three Fiber for 3D rendering, resulting in visually stunning and interactive web experiences.
- Leveraged Next.js for server-side rendering and static site generation, optimizing website performance and improving search engine visibility.
- Utilized Chakra UI to create a consistent and responsive user interface, ensuring a seamless browsing experience across all devices.
- Integrated Kirby headless CMS, providing a flexible and user-friendly content management system for easy content updates and maintenance.
- Maintained clear and concise documentation, facilitating seamless knowledge transfer and ensuring efficient collaboration with team members.
- Followed best practices and coding standards, ensuring clean and efficient code that is easy to maintain and scale.
- Conducted thorough testing and debugging, identifying and resolving issues to deliver a high-quality and error-free website.

Fullstack Engineer (freelance)

2023-04 - 2023-10

[Bankless Consulting](#)

- Architected and implemented robust endpoints using Nest.js (Node.js framework), Next.js, and Amazon RDS, facilitating seamless data management and tracking for Bankless Consulting.
- Collaborated closely with stakeholders to gather requirements and translate them into actionable technical specifications, delivering high-quality solutions that met organizational needs.
- Leveraged Amazon Web Services (AWS) infrastructure, including AWS Elastic Beanstalk and AWS S3 bucket, to ensure efficient deployment and scalability of the web application.
- Employed best practices in software development, such as version control, testing, and documentation, to maintain code quality and enable future enhancements.

- Monitored and optimized the performance, security, and reliability of the internal tool, ensuring a smooth user experience and adherence to industry standards.
- Utilized expertise in Nest.js, Next.js, and other relevant technologies to develop innovative features and functionalities that enhanced the overall user experience.

Frontend Engineer

2022-06 - Present

Agrify Technologies

- Played a pivotal role in the development and maintenance of Agrify Technologies' marketplace web application, ensuring its efficiency and effectiveness in meeting business objectives.
- Demonstrated proficiency in the Next.js framework, leveraging its powerful capabilities to deliver high-performance and scalable web solutions.
- Collaborated closely with cross-functional teams to understand business requirements, translate them into technical specifications, and successfully deliver projects within stringent deadlines.
- Actively participated in code reviews, identifying areas for improvement and implementing best practices to optimize performance, maintainability, and security.
- Developed responsive and user-friendly frontend interfaces, enhancing the overall user experience and driving customer engagement.
- Implemented efficient data fetching and caching strategies, resulting in improved application performance and reduced load times.
- Utilized modern frontend technologies, such as React and CSS frameworks, to create visually appealing and intuitive user interfaces.
- Maintained clear and concise documentation, ensuring ease of understanding and seamless knowledge transfer between team members.

Frontend Developer

2021-11 - 2022-11

UMobile.ng

- Developed and maintained the company's website using the latest frontend technologies, ensuring a modern and visually appealing online presence.
- Built and maintained a modern internal dashboard for the company's product, leveraging React to implement endpoints and create user-friendly interfaces for tracking and monitoring important user data and real-time key metrics.
- Ensured the highest quality of the product by maintaining code and writing automated tests, minimizing bugs and ensuring smooth functionality.
- Collaborated with a team to build pixel-perfect and responsive UIs across both mobile platforms, enhancing the user experience.
- Leveraged native APIs to integrate the product seamlessly with both iOS and Android platforms, optimizing performance and functionality.
- Diagnosed and resolved bugs and performance bottlenecks, ensuring a smooth and native-like experience for both iOS and Android apps.
- Maintained clear and concise documentation, facilitating ease of understanding and knowledge transfer within the team.
- Actively participated in code reviews, providing valuable feedback and suggestions for improvement to enhance the overall quality of the product.

Frontend Engineer Intern

2021-07 - 2021-11

HNGi8

- Successfully completed a fast-paced and challenging internship at HNGi8, demonstrating the ability to thrive in a competitive environment and quickly expand knowledge and skills.
- Collaborated with a team of talented individuals to develop the 'Company Goals' plugin for Zuri Chat, contributing to the enhancement of the platform's functionality and user experience.
- Acquired proficiency in working with the React library, utilizing modern CSS frameworks like Tailwind, and applying advanced Git concepts to ensure efficient and collaborative development processes.
- Adapted to working in a team setting, effectively communicating and collaborating with colleagues to achieve project goals and deliver high-quality results.
- Demonstrated the ability to handle pressure and meet tight deadlines, maintaining a high level of productivity and professionalism throughout the internship.
- Actively participated in team meetings and discussions, contributing ideas and insights to improve project outcomes and foster a culture of innovation.

- Embraced a proactive approach to learning, seeking out opportunities to expand knowledge and skills in frontend engineering and related technologies.
- Maintained clear and concise documentation of project progress and code, facilitating seamless knowledge transfer and future development.

Frontend Intern

2021-03 - 2021-07

Zuri

- Completed a 4-month remote tech training program at Zuri, gaining hands-on experience in frontend development and collaborating on real-life projects.
- Acquired proficiency in HTML, CSS, JavaScript, and React, applying these skills to build responsive and user-friendly web applications.
- Developed a web application called reSendapp, enabling users to send and receive money without charges, as well as purchase airtime and data using app wallets.
- Utilized HTML5, CSS, Bootstrap, JavaScript, and Python Django to create a seamless and secure user experience.
- Collaborated effectively with teammates, contributing to the successful completion of the project within the given timeframe.
- Demonstrated a strong commitment to learning and growth, actively seeking mentorship opportunities and continuously improving technical skills.
- Maintained clear and concise documentation, ensuring ease of understanding and knowledge transfer among team members.
- Actively participated in code reviews and provided constructive feedback to enhance the quality and efficiency of the application.
